Hemlocks

The Hemlock has always been one of our specialties. Of better color and more compact than those usually offered, they must be seen to be fully appreciated.

Canada Hemlock

No evergreen is more graceful or beautiful than our Canada Hemlock. It will thrive in sun or shade, and laughs at subzero weather. The dwarf form is very desirable where a slowgrowing compact plant is required.

Plant now and enjoy the rewards of your efforts next year and in the years to come. For example, planted this spring, a small bed of asparagus will furnish delicious meals in 1946; raspberries and blackberries will bear copiously then, too. Fruit trees planted now should begin bearing in about four years.

FRUIT TREES

Ready-to-Bear Trees:

We have a fine stock of several times transplanted 5- and 6-year-old trees. Available in McIntosh, Baldwin, and Rhode Island Greenings. These should begin to bear well within two years. Specially priced at \$5.00 each, \$45.00 per ten.

Combination Fruit Trees:

Grow 5 varieties of apples all on one tree! We offer 5-N-1 apple trees priced at \$2.50 each. Varieties grafted on each tree are Yellow Delicious, Double Red Delicious, Red Rome Beauty, Yellow Transparent and Stayman's Winesap.
